Learning with Fast Lane means real-world experience that translates from the classroom to the job with ease. Our vendor-certified instructors have expertise in advanced technologies, and can explain them at a level that ensures your employees will gain the knowledge and skills to immediately impact your productivity.

Cisco, NetApp and VMware's Only Authorized Worldwide Learning Partner

Fast Lane delivers Cisco, NetApp and VMware training programs worldwide. Our instructors are certified specialists with extensive storage and networking experience. With these three authorizations, Fast Lane is a uniquely qualified training partner in this new cloud computing and virtualization world.

We are the fastest-growing, and only authorized Cisco Learning Specialized Partner (CLSP) in all three of Cisco's geographical zones.

We are NetApp's only Global authorized learning partner and are proud to offer the same basic training as NetApp University, plus Fast Lane developed advanced NetApp training.

Fast Lane is an award winning VMware Authorized Training Center and offer VMware training in more countries than any other partner.

Our Promise

Learn From the Best in the Business

Training with Fast Lane means you are learning from the best in the business. Our students enjoy the use of state-of-the-art training and demo labs built to reflect real world networks. The labs provide first-rate service that raise the bar for training quality and are equipped with the latest devices and technologies. Our labs can be accessed from any location and are used for in-classroom, Instructor Led Online (ILO) and our FLEX Classroom™ offerings.

We offer complete authorized training solutions for Cisco, NetApp and VMware, and are uniquely positioned to address your IT challenges. Fast Lane also provides quality training programs on advanced and emerging technologies, like FlexPod. We help you stay on top of the needs of your company's IT environment.

Our training allows you access to the newest information available. We have the ability to offer specialized insight, skills, and consulting in the areas of virtualization, data center, voice, business video unified communications, security, wireless, or optical technologies. We can provide custom or tailored training

Delivery Methods

Fast Lane offers several delivery methods. We provide our world class training in most major metro areas. We also provide online virtual classrooms that allow you to conserve valuable travel time and funding. Our private onsite training can be customized for your needs and delivered at your location.

We offer a robust GTR - Guaranteed to Run™ schedule, so you can enroll with confidence.

You will notice the following icons used in our course schedules on our website.

ILT - Instructor-Led Classroom Training

ILT sessions are conducted in a physical classroom environment.

ILO - Instructor-Led Online Training

ILO sessions are conducted via WebEx™ in a VoIP environment.

FLEX Classroom™ - Combined ILT & ILO

FLEX Classroom sessions are delivered via ILO and ILT giving you the ultimate flexibility.

Private Onsite Training

We can customize our award winning training and deliver to you via any of our methods.

GTR - Guaranteed to Run™

With our GTR classes, you won't have to worry about rescheduling your training. No matter how many students are enrolled, we will run the class, guaranteed.
