

Advanced Technology Training

Advanced Technology and Security training solutions are our core business. As the only learning partner authorized by Cisco, NetApp and VMware, we have the unique capability of developing and delivering authorized multi-vendor content. Fast Lane is well-positioned to deliver new and advanced technologies now and in the future. Our experience and strategic relationships can help the Federal government bridge the skills gap between today's technology and product training and the required job role. We can help you design a functional, performance-based training solution to meet your skills-based objectives. Are you cyber ready? Consult with our Federal team to help solve your most pressing mission objectives.

COMPANY INFORMATION

Fast Lane, with locations and partners in more than 60 countries, has been providing advanced technology and security training since 2002. We offer multiple solutions to our customers and partners in the areas of Training Delivery, Education Consulting, Content Development and Managed Services. Our instructors combine technical knowledge with work in the field bringing real-world experience to the classroom.

We deliver public, private on-site, Instructor-led Online (ILO) and mobile classes to DOD base worldwide. Our ILO programs delivered in a virtual classroom allow us to train dispersed teams in a single session with no travel costs incurred.

Too busy during the day? Our night courses allow you the flexibility to keep up with your work schedule and still get the training you need. Email us to find out more about our Night School training.

REGISTRATION

To register for these or any other classes offered by Fast Lane, visit www.fastlaneus.com. We accept multiple forms of payment, including credit cards (Visa, MC and Amex), purchase orders, and corporate checks.

You can also reach out to your Account Manager, John Kauffman for more details and special discounts.

DELIVERY METHODS

Fast Lane offers several methods for course delivery. These icons can be found in the course schedules on our website, denoting the various delivery options.

ILT - Instructor-Led Classroom Training

ILT sessions are conducted in a physical classroom environment in most major cities.

ILO - Instructor-Led Online Training

ILO sessions are conducted via WebEx™ in a VoIP environment that requires an internet connection and a headset with a microphone connected to your computer or laptop.

FLEX Classroom™ - Combined ILT & ILO

FLEX Classroom sessions are delivered via a combination of ILO and ILT giving you the ultimate flexibility.

Private Onsite Training

We can deliver standard or custom private sessions, wherever and whenever. Personal interaction with colleagues and instructors creates a collaborative learning environment tailored to your unique business demands.

GTR - Guaranteed to Run™

With our GTR classes, you can plan your team's training schedule with no concern about course cancellation.
