

QUICK REFERENCE GUIDE FOR IBM N series Training

Fast Lane is IBM's Worldwide Authorized Learning Partner for the IBM System Storage™ N series Unified Storage Solutions product line, delivering both standard and customized courses in public and private sessions. All Fast Lane IBM System Storage N series courses are taught by certified instructors using Authorized IBM System Storage N series courseware. Fast Lane Learning Credits are accepted as payment for all Fast Lane delivered IBM System Storage N series courses.

IBM System Storage N series course offerings are available to IBM Employees, Business Partners, and Customers. Fast Lane can work with you or directly with your customer to bring standard courses or customized programs to a specified location upon request. We can combine topics from several courses to create a learning solution that addresses your customer's precise needs. For dispersed audiences, or if travel budgets are a concern, many of these courses are also available as Instructor-Led Online (ILO) training via WebEx.

IBM N SERIES AUTHORIZED TRAINING BENEFITS:

- Adding training to your proposals gives your customer a more complete solution
- A well-trained customer is a more satisfied customer
- A well-trained customer requires less technical support and will invest in more storage hardware
- Sales of Fast Lane N series Learning Credits adds margin to your sale and/or a discount to your customer

ONSITE TRAINING BENEFITS:

- Customers can talk openly about proprietary network environment and implementation plans
- Customers have exclusive access to instructor
- More timely than waiting for public class to come to a convenient location
- More cost effective — saves travel and expenses for attendees

QUESTIONS FOR CUSTOMERS:

- Does your workforce possess the skills and knowledge required to integrate new IBM N series technologies?
- Does your organization require or need certified individuals?
- Who determines training needs?
- Who is responsible for the training budget?

QUALITY Training from IBM's
Worldwide Authorized Learning Partner

IBM N series Authorized Training Curriculum

ABOUT FAST LANE:

Fast Lane, with locations in more than 60 countries, has been providing advanced technology training and consulting since 1996. We offer multiple solutions to our customers and partners in the areas of Training Delivery, Education Consulting, Content Development and Managed Services. Our instructors, located around the globe, are real world practitioners of advanced technologies and not only teach in the classroom but also regularly provide advanced technology Consulting Services. Local language instruction is available in most countries. Fast Lane partners with important technology vendors to ensure you have access to the most comprehensive and effective training programs available today. Plus, we supplement vendor training with Fast Lane developed advanced technology courses.

“IBM chose Fast Lane to be its first Worldwide authorized N series training partner because of their outstanding reputation for quality, expertise in FAS training and ability to deliver training to IBM audiences around the globe.”

—Kenneth Griffo, WW IBM Storage Networking Sales Executive Administrator
