

Cisco Platinum Learning Library

Cisco® Platinum Learning Library combines the best centralized online certification and product training with a large library of learning resources, labs, and problem-solving reference materials, so that your team can quickly reach skills competence in the most cost-effective manner possible.

Benefits

- Achieve skills competence at a faster rate.
- Stay current without downtime or lost productivity.
- Enhance in-house problem-solving skills and reduce wait times for outside fixes.
- Increase your ability to deploy and support new technologies with existing staff.
- Manage the expense of staff readiness while driving the benefits of highly skilled resources.
- Increase employee productivity and loyalty.

Overview

Your team is charged with maintaining the health of your network and infrastructure—at a time when your IT environment is constantly evolving. In the face of constant change, how do you keep your team current with the latest Cisco product releases? How do you keep current with the latest job skills found in Cisco certifications? And how can you train your team efficiently and cost-effectively?

The *Cisco® Platinum Learning Library* is a dynamic collection of thousands of on-demand technical assets and resources plus, over 400 online courses and hands-on labs offered by Cisco Learning Services—content and courses that your organization can access and consume quickly and seamlessly anywhere and anytime to keep your team current and help them quickly achieve the infrastructure skills they need.

Cisco® Platinum Learning Library Components

With a subscription to the *Cisco® Platinum Learning Library*, you will have access to:

- **400+ training courses**, updated weekly, covering key Cisco certifications and technologies.
- **Interactive Hand-on Labs** allowing you to practice what you are learning in each course.
- **End-to-End Support and Cisco Resources** to help you be successful—including transcripts and downloads from each course, plus thousands of supplemental learning aids and documents catalogued with advanced search capabilities.
- **Role Based Learning Paths** to enable intelligent consumption of those resources that will provide the best experience needed to support your environment.

Why Cisco?

We are invested in your success. Cisco is the most experienced networking vendor, with over 28 years of thought leadership, 50 million worldwide installations, and more than 6 million annual customer interactions. Nobody knows networks like Cisco, and nobody knows better how to train your team on Cisco networks. As a *Cisco® Platinum Learning Library* subscriber, you benefit from Cisco's combined training leadership, deep technology expertise, best practices, and proven methodologies. And by getting trained on that same expertise through one centralized repository, your team can reach its best potential.
